Compliance Report 19
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
Temper of the Times Investor Services, Inc.
Harrison, New York

We have audited the accompanying financial statements of Temper of the Times Investor Services, Inc., (the "Company") (a New York Corporation), which comprise the statement of financial condition as of December 31, 2015, and the related statements of operations, changes in stockholders’ equity, changes in liabilities subordinated to claims of general creditors, and cash flows for the year then ended that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements and supplemental information. Temper of the Times Investor Services, Inc.’s management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial condition of Temper of the Times Investor Services, Inc. as of December 31, 2015, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The accompanying supplementary information on pages 14 through 17 has been subjected to audit procedures performed in conjunction with the audit of Temper of the Times Investor Services, Inc.’s financial statements. This supplemental information is the responsibility of the Temper of the Times Investor Services, Inc.’s management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the

Registered with the Public Company Accounting Oversight Board
Member of the American Institute of Certified Public Accountants
underlying accounting and other records, as applicable and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with Rule 17a-5 of the Securities Exchange Act of 1934. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

TEMPER OF THE TIMES INVESTORS SERVICES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015

1. Summary of significant accounting policies:

Nature of operations

Temper of the Times Investor Services, Inc., (the Company) is engaged in a single line of
business as a self-clearing securities broker/dealer, which provides a service to help
customers become enrolled in dividend reinvestment plans of publicly-traded companies.
This service is provided primarily to independent investors and subscribers of Direct
Investing, a semi-monthly on-line newsletter, and purchasers of the Guide to Direct
Investment Plans, both of which are published by an affiliate targeting small retail
investors. The Company is a member of the Financial Industry Regulatory Authority
(FINRA) and a member of the Securities Investor Protection Corporation (SIPC). The
Company operates in New York and its customers are located throughout the United
States.

Securities inventory

Securities inventory consists of marketable corporate equity securities recorded on a
settlement date basis and are stated at fair value based upon quoted market prices. The
Company's securities inventory in the process of transfer is comprised exclusively of
marketable corporate equity securities that are pending transfer to customers and is stated
at cost.

Fair value measurement

Accounting principles generally accepted in United States of America (GAAP) defines
fair value, establishes a framework for measuring fair value, and establishes a fair value
hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that
would be received to sell an asset or paid to transfer a liability in an orderly transaction
between market participants at the measurement date. A fair value measurement assumes
that the transaction to sell the asset or transfer the liability occurs in the principal market
for the asset or liability or, in the absence of a principal market, the most advantageous
market. Valuation techniques that are consistent with the market, income or cost
approach, as specified by GAAP are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair
value into three broad levels:
- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets
  or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that
  are observable for the asset or liability, either directly or indirectly.
1. **Summary of significant accounting policies (continued):**

**Fair value measurement (continued)**

- Level 3 inputs are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

**Revenue recognition**

The Company charges an enrollment service charge for opening dividend reinvestment plan accounts for those customers with the various publicly held companies. The enrollment charges and the related revenues in connection with the dividend reinvestment plan service are recognized when shares are transferred to account of the customer. With respect to the Company's method of conducting business, there is no material difference between accounting on a settlement date basis as compared to a trade date basis. Deferred income is recorded when the shares are purchased for the customer and recognized when the Company receives confirmation of delivery to the customer.

**Advertising costs**

The Company does not do any direct advertising.

**Income taxes**

The Company's shareholders elected S corporation status for Federal and New York State income tax purposes. All taxable income and expense items are allocated to the shareholders for inclusion in their respective income tax returns. Accordingly, there is no provision for Federal or New York State income taxes.

The Company evaluates the effect of uncertain tax positions, if any, and provides for those positions in accordance with the provisions of GAAP and discloses any material adjustments as a result of tax examinations. The Company reports interest and penalties resulting from these adjustments as other expenses.

There are no deferred taxes as the timing differences between accounting and tax items are immaterial.

Tax returns for the years ended December 31, 2012 to 2015 are subject to audit by the Federal and New York State taxing authorities.
1. **Summary of significant accounting policies (continued):**

   **Cash and cash equivalents**

   For purposes of the statement of cash flows, the Company considers all highly-liquid securities with a maturity of three months or less, when purchased, to be cash equivalents.

   **Use of estimates**

   The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of income and expenses during the reporting period. Actual results could differ from those estimates.

2. **Cash segregated under Federal and other regulations:**

   Cash has been segregated in a special reserve bank account for the benefit of customers under rule 15c3-3 of the Securities and Exchange Act of 1934.

3. **Payables to customers:**

   The Company accounts for monies received from customers as a payable until the requested securities are purchased and transferred to the customer’s account.

4. **Fair value:**

   The following table presents the Company’s fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2015.

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>Securities inventory</td>
<td>$13,671</td>
<td>$</td>
<td>$</td>
<td>$13,671</td>
</tr>
</tbody>
</table>
5. Retirement plan:

The Company maintains a 401(k) plan covering all eligible employees. The Company has an option to match the employee contributions. The employees made voluntary plan contributions in 2015. The Company did not make any discretionary contributions in either year.

6. Net capital requirements:

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (rule 15c3-1), which requires the maintenance of minimum net capital of $250,000 and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2015, the Company had net capital of $779,658, which was $529,658 in excess of its required net capital of $250,000. The Company's aggregate indebtedness to net capital ratio was .02 to 1.

7. Regulation:

The Company is registered as a broker-dealer with the United States Securities and Exchange Commission (SEC). The securities industry in the United States is subject to extensive regulation under both federal and state laws. The SEC is the federal agency responsible for the administration of the federal securities laws. Much of the regulation of broker-dealers has been delegated to the Financial Industry Regulatory Authority (FINRA) which has been designated by the SEC as the Company's primary regulator. This self-regulatory organization adopts rules, subject to approval by the SEC, that govern the industry and conduct periodic examinations of the Company's operations. The primary purpose of these requirements is to enhance the protection of customer assets. These laws and regulatory requirements subject the Company to standards of solvency with respect to capital requirements, financial reporting requirements, record keeping and business practices, the use and safekeeping of customers' funds and securities, and the conduct of directors, officers and employees.

Securities firms are also subject to regulation by state securities administrators in those states in which they conduct business.

The Company's operations were inspected by FINRA during 2015.
8. **Concentrations:**

**Credit risk**

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash and cash equivalent accounts in financial institutions, which from time to time exceed the Federal depository insurance coverage limit. The Company’s cash management policy is to mitigate the Company’s credit risks by investing in or through major financial institutions.

**Business risk**

The Company's revenues and profitability is affected by many conditions, including changes in economic conditions, inflation, political events, and investor sentiment. Because these factors are unpredictable and beyond the Company's control, earnings may fluctuate significantly from year to year.

**Stock purchases**

The Company uses a single broker-dealer to purchase the stock used to fulfill customer enrollment orders. A change in brokerage firms could cause an increase in transaction costs and a possible loss of sales, which could adversely affect operating results.

9. **Related party transactions:**

**Subordinated loan payable, related party**

The Company received a $200,000 loan from an affiliate in 1999 which was subordinated to all claims of present and future creditors of the Company prior to maturity. In January 2013, the successor affiliate extended the maturity of the loan to January 31, 2016 with the interest rate at 6% and the extension of the subordinated agreement thru January 31, 2016 was approved by FINRA. Subsequent to year-end, the successor affiliate extended the maturity of the loan to January 31, 2019 with the interest rate of 6%.
9. Related party transactions (continued):

Subordinated loan payable, related party (continued)

The Company recorded interest of $12,000 annually for 2015 on the above loan. As of December 31, 2015, there is no unpaid interest.

Administrative expenses - postage, telephone, office supplies

The Company and its affiliate share office space and administrative expenses. Expenses are allocated based on the amount of usage.

10. Financial instruments:

Substantially all the Company's financial instruments are carried at fair value or amounts that approximate fair value.

11. Securities in the process of transfer:

The Company fulfills customer orders by purchasing securities through brokers and arranges for the transfer of the shares purchased to the ultimate owner through the respective transfer agents.

12. Commitments and contingencies:

The Company does not have any commitments or contingencies at December 31, 2015.

13. Subsequent events:

Events that occur after the statement of financial condition date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the statement of financial condition date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the statement of financial condition date, require disclosure in the accompanying notes. Management evaluated the activity of the entity through ________ 2015 (the date the financial statements were available to be issued) and concluded that no subsequent events have occurred that would require disclosure in the notes to the financial statements.
